

FIBER CEMENT RAINSCREEN

The Commons at Stanton Square

New Headquarters gets playful with a Swisspearl® Fiber Cement Rainscreen.

For the new 55,000 square foot facility known as "The Commons at Stanton Square" [Cladding Corp](#) provided a rainscreen solution incorporating CARAT and NOBILIS fiber cement panels from [SWISSPEARL®](#) and a VZ.10 rainscreen attachment system from partner company [ECO Cladding](#).

Designed by Washington DC firm [Cox Graae Spack Architects](#), The Commons was completed in May of 2018 for Martha's Table.
