

SWISSPEARL® FIBER CEMENT RAINSCREEN

Grinnell College – Grinnell, IA

Admission and Student Financial Services Gets Rainscreen Upgrade

Ayers Saint Gross of Baltimore has designed the new Admission and Student Financial Services (ASFS) building at Grinnell University. Swisspearl® fiber cement and a wood grain HPL rainscreen were installed on an ECO Cladding sub-framing system.

Panel Type: Swisspearl®
Architect: Ayers Saint Gross

The two products creates a sense of warmth with a contemporary design that Grinnell College desired for the heart of campus. The building provides a technology-rich presentation room where visitors are invited to learn more about their college and peers.
