

Swisspearl Largo

Freedom of design without limits

The large-format Swisspearl Largo panels give façades what they need: a face, individuality, character, texture, color, and most important, a highly effective protective layer. Swisspearl Largo allows an immense range of possibilities for the design of façades, with an extensive selection of surface options, various types of joints, fastenings, and panel formats that can be freely selected within the maximum useable size. For visible creativity and to meet the highest aesthetic requirements, in proven Swisspearl quality.
