

SWISSPEARL® FIBER CEMENT RAINSCREEN

# Vassar Integrated Science

*A Campus Façade Inspired by the Landscape*

[Ennead's design](#) expertise is fully on display at Vassar's Integrated Science Commons, the historic New England and Sanders Physics, which house offices, classrooms and dry labs, have been completely renovated.

Clad in [Swisspearl®](#) fiber cement and stone, the building's façade is inspired by the dense, tree-lined landscape. The Bridge incorporates a number of innovative façade features designed to minimize bird collisions, including a fritted glass curtainwall and largest application of Ornilux glass in the United States to date. ECO Cladding's state-of-the-art Hci.10 System allowed the design team to easily execute the panel layout.

System Type: Hci.10 system

Panel Type: Swisspearl® / Eternit Auria C

Architect: [Ennead](#)
