

TERRA COTTA RAINSCREEN

McCormick & Company, Inc.

Terracotta Rainscreen for a Renovated Corporate Headquarters

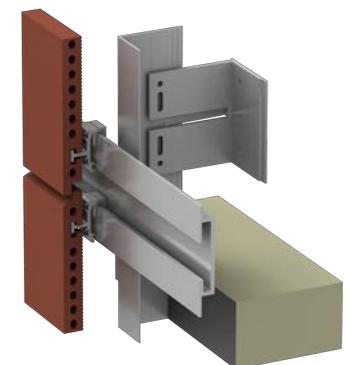

McCormick & Company, Inc., manufacturer of flavors and spices, has a new global headquarters in Hunt Valley, MD. This beautiful building brings together 1,000 employees which were previously located across four different office buildings into one corporate headquarters.

This LEED Gold certified project, developed by Greenfield Partners, LLC, was designed and renovated by the design team at Studios Architecture. For the terracotta rainscreen cladding, Terra5 panels with an ECOCladding sub-framing system was selected.

System Type: Alpha Vci.45 System

Panel Type: Terra5 in Ash and Pebble Grey

Architect: Studios Architecture
