Swisspearl Facades Delivery Program

Formats, surfaces and colors

Special remarks

Panel sizes	Vintago, Vintago-Reflex, Avera:	Gravial:	Nobilis, Terra:
Maximum useable finished panel sizes, after all four panel edges have been trimmed off.	Only available in 8 mm thickness.	Only available in 12 mm thickness.	These 12 mm panels are only available in size 2510 × 1250 mm.
Maximum useable finished panel sizes, after all four panel edges have been trimmed off.	**930 mm width panels** Panels with 930 mm width are only available in selected Carat colors and require a minimum order quantity of 500 panels.	Because 930 mm and 1250 mm panels are produced from different production batches, we advise to not intermix the panels on the same facade as slight color discrepancies may exists.

General information

The various finishes and colors allow the unique character of the Swisspearl panels to be expressed in an almost endless diversity. The carefully chosen full-body color and color finishes, each in their own way, emphasize the unmistakable aesthetics of the material, combined material and color to form a complete building envelope.

CARAT — Unique natural look and timeless beauty. The translucent lightly pigmented finish adds a distinguished expression.

GRAVIAL — Unique interplay of light and shadow. The linear, geometrical grooved surface offers countless options for making a special statement.

VINTAGO — Naturally authentic, rough, lively and unique. The sanded surface highlights the purity of the fiber cement panel.

VINTAGO-REFLEX — Rough, lively with a shiny look. Vintago-Reflex has a sanded surface combined with a reflective surface giving a slightly rough, yet lively, shiny look.

AVERA — Authentic and vibrant appearance. The transparent coating lets the original natural look of the fiber cement shine through.

REFLEX — Shiny look with metallic character. The reflective surface coating gives the panels a sophisticated, shiny look.

NOBILIS — Authentic fiber cement look. The translucent lightly pigmented surface highlights the fiber cement texture in its natural beauty and elegance.

TERRA — Earthy and warm atmosphere. The finely coordinated colors are a reminiscent of earth tones and gives the building envelope an earthy, natural look.

PLANEA — Fresh and colorful creativity. The matte and smooth finish emphasizes the clear, bright and strong colors for an overall intense appearance.

Customized colors:
Swisspearl has an unmatched competence and knowledge regarding special colors.

The printed colors may differ from the original shade of the color. To see the exact color, and when matching up colors on adjacent parts of a building, one must use the original panel samples. The natural ingredients used in the fiber cement panels will to some extent determine the unique character of the material. The intensity and color tone may vary slightly depending on the production batch.
