

FIBER CEMENT RAINSCREEN

# Janelia Farm Campus - HHMI

Ashburn, VA

Designed by WDG Architects of Washington, DC, the new residential apartments on the HHMI campus incorporates the use of glass, metal panel and Cladding Corp's Cem5 fiber cement rainscreen cladding for the exterior skin of the project. The 22,000SF of Cem5 was installed using the Hci.10 visible rivet system, incorporating exterior insulation within the cavity to meet the project's R-Value requirements for the exterior envelope.

System Type: Hci.10  
Panel Type: Cem5  
Architect: WDG Architecture  
Installer: Boatman & Magnani  
Completed: 2010
