

SWISSPEARL® FIBER CEMENT RAINSCREEN

Apalachee Parkway Office Capital City Bank – Tallahassee, FL

Refined Modern Exterior Meets Lasting Performance

The new Capital City Bank Group office on Apalachee Parkway in Tallahassee, FL, showcases a modern and refined exterior using Swisspearl® fiber cement panels. Designed by Architects Lewis + Whitlock, PA, the building features a clean, contemporary façade supported by an ECO Cladding VZ.10 and Hci.10 subframing system. This rainscreen approach not only enhances the structure's visual appeal but also ensures long-term durability, energy efficiency, and low maintenance. The combination of Swisspearl panels and engineered cladding support reflects a smart, performance-driven design for a forward-looking financial institution.
