

SWISSPEARL® FIBER CEMENT RAINSCREEN

CACPCS – Bronx, NY

Vertical Swisspearl Façade for New Charter School

Children's Aid College Prep Charter School (CACPCS) provides students with a rigorous core instructional programs that are supported by expanded learning opportunities and a comprehensive set of student support services. FXFowle designed this building using a vertical Swisspearl® fiber cement rainscreen and a fiber concrete panel using an ECO Cladding sub-framing system.

Panel Type: Swisspearl®

Architect: FXFowle
