

SWISSPEARL® FIBER CEMENT RAINSCREEN

107 Forbes – Annapolis, MD

A striking new gem in the heart of Annapolis, MD showcasing dutch-lap design

[Grid Architects](#) of Annapolis, Maryland have created another gem in the heart of Maryland's state capital. Using a very innovative "dutch lap" or "fish scale" design, Swisspearl's metallic color series called Reflex, makes 107 Forbes a memorable installation. The building is situated at the entrance to Annapolis, a quaint and historic town. The town now has a beautiful new addition featuring the warmth of HPL wood panels and Swisspearl's metallic series fiber cement.

Panel Type: Swisspearl®
System: ECO Cladding VZ.10
Architect: Grid Architects
