

## FIBER CEMENT RAINSCREEN

# Afton Scientific – Charlottesville, VA

*A new pharmaceutical manufacturing facility featuring a contemporary facade*

Afton Scientific commissioned [FPW Architects](#) to provide architectural and engineering services to convert a vacant rental space into an aseptic pharmaceutical manufacturing facility. The completed building was to present a clean and contemporary aesthetic consistent with a leader in the pharmaceutical industry. FPW selected Swisspearl fiber cement panels as the featured facade material.

Panel Type: Swisspearl®  
System: ECO Cladding VZ.10  
Architect: FPW Architects
