

TERRA COTTA RAINSCREEN

Lauritzen Outpatient Center – Omaha, NE

A beautiful expansion of an urban medical campus & teaching hospital

[RDG Planning and Design](#) and [HOK](#) selected Terra⁵ for The Lauritzen Outpatient Center in Omaha, Nebraska. This project expands and relocates an existing outpatient surgical environment and clinical services to serve steadily increasing outpatient volumes for a complex urban medical campus and teaching hospital. The new ambulatory outpatient center is a 4-story building located on the Nebraska Medical Center's campus with direct skywalk access to the rest of campus. Terra5 baguette sunscreens are a focal facade element.

Panel Type: [Terra⁵ Terracotta Rainscreen](#)

Sunscreen Type: Terra⁵® Baguette

Architect: RDG Planning and Design,
and HOK Architects
