

PORCELAIN CERAMIC RAINSCREEN

Mayo Clinic Integrated Education & Research Building – Arlington, TX

Advancing Medical Innovation: Mayo Clinic's IERB Featuring Ceramic5 Panels

The Integrated Education and Research Building (IERB) at Mayo Clinic's Phoenix Campus is a cutting-edge facility designed to advance medical research and training. Bringing together students, educators, scientists, and physicians, the IERB features state-of-the-art classrooms, labs, a makerspace, and collaborative spaces. Cladding Corp supplied Ceramic5 NE13 Ocean Grey panels for the project, chosen to enhance the building's modern and innovative design.

Panel Type: Ceramic5

Architect: DFDG Architecture, CO Architects
