

# 575 Grand Street - Brooklyn, NY

The 575 Grand Street project in Williamsburg, Brooklyn, is a nine-story, 186-unit rental property located in a vibrant pedestrian corridor. Designed by NY Building Associates and fabricated by Bolton Cladding, the development spans approximately 175,000 square feet, with 30 percent of its apartments designated as affordable housing. The façade features 15,000 square feet of Swisspearl Carat Crystal 7010 fiber cement panels, offering a sleek, durable, and modern aesthetic that complements the bustling urban environment.

**Panel Type:** Swisspearl® Carat Crystal 7010
