

PORCELAIN CERAMIC RAINSCREEN

Insulet Corporate - Acton, Massachusetts

State-of-the-Art Solar Powered U.S Manufacturing Facility

[CI Design](#) recently completed the renovation and expansion project of the Insulet Corporation Corporate Headquarters. Insulet wanted the ability to expand its facility in the future as the business grows. The Insulet headquarters and manufacturing facility, at 380,000 square feet, incorporated sleek elements that invoke the rounded contours and predominantly polished white color scheme of Insulet's flagship product. This facility expansion, as well as Insulet's job growth, investments, and community involvement, awarded them the 16th Annual MassEcon Impact Gold Award.

Panel Type: [Ceramic5 Stone Series](#)
