

SWISSPEARL® FIBER CEMENT RAINSCREEN

Julian B. Lane Park

Award-winning Community Center Designed with Nature in Mind

W Architecture and Landscape Architecture, have come together to create a clean yet contemporary design to play well within nature.

Panel Type: Swisspearl®
Architect: W Architecture

The Swisspearl® fiber cement panels played a valuable role in helping Julian B. Lane Park win the 'Best Project' award within the Landscape/Urban Development category from the annual ENR Southeast annual awards. This project was one of 120 entries.

W Architecture designed the project with Civitas and both the community center and landscape were recognized with the award.
