

TERRA COTTA RAINSCREEN

# Fire Station #5

*Modern Updated to San Francisco's Historic Fire Station*

Cladding Corp's Terra5 rainscreen for the building's entrance. Built from the ground up, the new Fire Station No. 5 at 1301 Turk St. replaced the 1950s-era firehouse at the same location that no longer met the demands of a modern-day San Francisco.

San Francisco Public Works designed and managed construction of the new facility, which is expected to receive LEED Gold certification for energy and water efficiency.

System: ECO HZ.22

Panel Type: Terra5 TC30

Architect: San Francisco Public Works
