

Cooper's Hawk Restaurant

High-performance Fiber Cement Façade for Flagship Restaurant

For this [Barker Nestor](#) project, [Swisspearl®](#) CARAT Onyx 7091 fiber cement panels with an unique fin detail were used to complement a sleek contemporary facade at Doral's Cooper's Hawk Winery [location](#). Swisspearl's UV-stable, high performance, through-colored CARAT series was a perfect choice. Installed using ECO Cladding's HZ and VZ.10 systems, [Cooper's Hawk](#) is the anchor restaurant for the new Doral shopping scene.

System Types: HZ.10 and VZ.10

Panel Types: CARAT Onyx 7091

Architect: Barker Nestor
