Swisspearl Panels to Complement Progressive LEED-Platinum Residential Architecture

Cladding Corp is proud to have contributed to this exceptional project by providing Swisspearl panels. These panels, known for their durability and sustainability, perfectly complement the progressive residential architecture and contribute to the building's LEED-Platinum for Homes certification.

The architectural design by WDG Architecture Planning Interiors seamlessly blends with the natural surroundings, utilizing innovative materials and low-impact environmental techniques.

Panel Type: Swisspearl®
System: Alpha HZ.10 System
Architect: WDG Architecture
