## Northbridge Fire Station - Northbridge, MA

*Strength and Style in Service: Terra5 Rainscreen Powers the Northbridge Fire Station Design*

The Northbridge Fire Station, designed by Galante Architectural Studio - renowned for their expertise in fire station architecture - features a durable and modern Terra5 terracotta rainscreen facade. The design emphasizes functionality and resilience. Terra5's grey terracotta panels provide a sleek, low-maintenance envelope that enhances both energy performance and aesthetic appeal. This project for the town of Northbridge, MA stands as a model for contemporary civic design, combining tradition with cutting-edge rainscreen technology.
