

PORCELAIN CERAMIC RAINSCREEN

Santa Monica Early Childhood Lab School

Porcelain Stone Rainscreen for Early Childhood School Campus

Cladding Corp is proud to be a part of the Santa Monica Early Childhood Lab School development. Designed by [Carde Ten Architects](#), the Lab School is a valuable new community aid for early learning in Santa Monica. The project encompasses three buildings: a 2-story Administration Building, a 1-story Infant Toddler Building composed of childcare classrooms and a 1-story Preschool Building with multiple classrooms for preschool children. The project is expected to receive LEED Gold Certification and Cladding Corp's [Ceramic5](#) porcelain stone panels were selected as light-weight, affordable alternative to natural stone.

Panel Type: Ceramic5

Architect: Carde Ten Architects
